PRODUCT MacBook Air 2020
DATE 11 July, 2025

GOOD	BAD	CAN BE ADDED
High resolution display with true tones	Downloading certain apps is more complex than it needs to be	More ports besides C type
Clear stereo speakers (surprisingly good for the size)	245.11 GB data out of which 148 GB is system data	Receive files from Android or Windows devices via Wi-Fi Direct
720P HD webcam	Limited Android support	Swappable SSD/RAM
Thin and sleek scissor switch keys, quiet too	Only has a C Type port, lack of USB-A or HDMI	Touchscreen support
Large touchpad size	RAM is not upgradable, soldered SSD	Built-in Android emulator like iOS Simulator (no setup)
Multi-finger support on touchpad	Poor for testing GPU-heavy apps or mobile games	Foldable body or screen
Very small and lighweight, like a notebook	Managing folders in Finder is more tedious than it is in Windows Explorer	Delete button
Durable aluminium body	Apple repairs are extremely costly	Direct plug-and-play file transfer support like Windows
Apple Intelligence AI support in apps	MacOS security makes it harder to fully uninstall apps, with leftover files often needing manual removal	App unistaller (removes leftover system files too)

Interface is more aesthetic looking than Linux or Windows
MI chip which works 10x faster than an i7 PC
15+ hours of battery life in one charge
Touch ID
Spotlight feature
Activity Monitor for diagnostics
VoiceOver feature
Look Up Feature
Text To Speech (Mac OS)
XCode and Docker are native IDEs
Copy/paste code between Mac and iPhone/iPad
iCloud Sync
Built-in screenshot and screen recording tools (Shift + Cmd + 5)

senario name	BVA & EP Validation Testing
Module ID:	124
Tester Name:	Priyanshi
Test Case Description:	To check login personality with valid id & password
Prerequisites:	Stable internet connection. Cross enter Browser Valid URL Valid Id, Password
Environment Information:	Macbook,Window,Android

Scenario ID	Scenario	Test Steps	Test Input	Expected Results	Actual Results	Status	Comments
1a	Signup with valid username & Password	1.Enter URL 2.Enter Username 3.Enter Password 4.Click On Submit Button	Usename:System Password:Password123	Successfully Login	Logged in Successfully	Pass	Done Tested
1b	Signup with valid username & Password	1.Enter URL 2.Enter Wrong Username 3.Enter Password 4.Click on Submit Button	Username:system Password:Password123	Successfully Login	Your Username is Invalid	Fail	Not Done Tested
1c	Signup with valid username & Password	1.Enter URL 2.Enter Username 3.Enter Wrong Password 4.Click On Submit Button	Username:System Password:password123	Successfully Login	your Password is Invalid	Fail	Not Done Tested
1d	Signup with valid username & Password	1.Enter URL 2.blank Username 3.blank Password 4.Click On Submit Button	Username: Password:	Error	Your Username is Invalid	Fail	Not Done Tested
